

REQUEST FOR PROPOSALS
City Hall Building Water Infiltration Mitigation
Building Safety Department, Asheville, NC
Vendor Questions and Responses

1. The requirement for 30 pages; Does this mean thirty sheets printed front and back or 15 sheets printed front and back?
 - 30 pages double spaced would equate to no more than 15 sheets printed front and back.
2. Permitting; Does permitting include your office, Historic Resources Commission and Downtown Design Review only, or are there other agencies we need to be aware of?
 - Other permits may be required such as North Carolina Historic Resources, WNC Air Quality, etc. as determined by the requirements of the work.
3. What type of Environmental assessments do you anticipate for the project?
 - At a minimum sampling for lead paint, asbestos, and other environmental conditions that may be discovered requiring assessment.
